

- o Massive federal investments and assistance to organizations and businesses participating in the green new deal and ensuring the public gets a return on that investment
- o Ensure the environmental and social costs of emissions are taken into account
- o Provide job training and education to all
- o Invest in R&D of new clean and renewable energy technologies
- o Doing direct investments in frontline and deindustrialized communities that would otherwise be hurt by the transition to prioritize economic benefits there
- o Use democratic and participatory processes led by frontline and vulnerable communities to implement GND projects locally
- o Ensure that all GND jobs are union jobs that pay prevailing wages and hire local
- o Guarantee a job with family-sustaining wages
- o Protect right of all workers to unionize and organize
- o Strengthen and enforce labor, workplace health and safety, antidiscrimination, and wage and hour standards
- o Enact and enforce trade rules to stop the transfer of jobs and pollution overseas and grow domestic manufacturing
- o Ensure public lands, waters, and oceans are protected and eminent domain is not abused
- o Obtain free, prior, and informed consent of Indigenous peoples
- o Ensure an economic environment free of monopolies and unfair competition
- o Provide high-quality health care, housing, economic security, and clean air, clean water, healthy food, and nature to all
